PROJECTS

Portfolio

Using ReactJs, Css, Html, Built a personal customised portfolio where I have integrated my all personal projects and progress. [visit source code](#).

Simon Game Logic

Using Html, Css, Javascript, Implemented the classic Simon game logic, where the game generates a sequence of colors and users must replicate the sequence by clicking on the corresponding colors.

Incorporated multiple levels with increasing difficulty to keep players engaged and provide a sense of accomplishment as they progress. [visit source code](#)

Mini Pawn Game

Designed a mini game of pawn and rook by employing knowledge of C programming. Used Graphics, C library for visual and audio effects in the game. [visit source code](#)

Task pal

Using Html, Css, Javascript, Using Html, Css, Javascript, Google API Task Pal Your one stop solution to hasslefree home maintenance needs Many homeowners skilled domestic workers face challenges in finding consistent work opportunities and establishing a reliable client base. Traditional methods of advertising services or relying on word-of-mouth referrals can be unreliable and time-consuming, leading to periods of financial instability and underutilization of their skills. TaskPal aims to address these challenges by providing a convenient and efficient platform for homeowners to book skilled workers and for workers to find job opportunities [visit source code](#)
